## **When and why did WW2 start?**

**It involved many of the world's countries. The Second World War was started by Germany in an unprovoked attack on Poland. Britain and France declared war on Germany after Hitler had refused to abort his invasion of Poland.**

**World War 2 started in September 1939 when Germany attacked Poland. The Axis powers were those countries that joined to attack Europe, Africa, the Mediterranean and the Pacific.**

**Military Causes. Although a variety of different factors caused World War Two, the main event and the trigger for what started WW2 was Germany's invasion of Poland in September 1939. As soon as Hitler attacked Poland, Britain and France declared war against Germany.**

**Nazi leader Adolf Hitler claimed the massive invasion was a defensive action, but Britain and France were not convinced. On September 3, they declared war on Germany, initiating World War II. To Hitler, the conquest of Poland would bring Lebensraum, or "living space," for the German people.**
