Maths Online Practice

This week, Class 5 have been trialling a new online maths website which encourages practice at home. The feedback from children has been extremely positive. We are rolling this out to the other classes (Y1 upwards).

[Sumdog](#) will replace Mathletics as we feel that Mathletics is no longer competitively priced and Sumdog is better at personalising the types of questions for individual children and it also has exercises around spelling as well as mathematics.

Your child (Y1 upwards) will receive a login this term. Please do encourage Sumdog's use at home; although it costs less than Mathletics, there is still a substantial cost involved to the school. (If you were to pay for subscription to Sumdog privately, it would cost almost £50 per year for each child.) Home usage will be a consideration next year when we decide on renewal.

In addition to Sumdog, Miss Henderson has put together a list of free maths resources and games which are on the school website : <http://www.cathedralprimaryschool.com/maths/resources/>

Clubs

The £10 fee for clubs will be added to ParentPay before clubs begin next week.

Topic Navigators

This half term's Topic Navigators are on the class blogs and a printed copy has been given to the children. In addition, you should have received the half-termly curriculum overviews by email.

Date	Whole School Event
6 th May	First week of Clubs
6th May	Bank Holiday (School Closed)
