9th September 2013

To all the children at The Cathedral School

A very big thank-you to you all for making us so welcome when we came to see you at school on the 28th June.

During our visit we met many of you in your classrooms and we took a very interesting tour of your school led by pupils. Everyone was keen to tell us that the Cathedral School is a happy and friendly place and that you know you are listened to.

We also met with groups of you separately and you were able to tell us about the importance of Rights and Respect in your school. You explained to us that the UNCRC is for all children everywhere and so everyone should be able to enjoy their rights.

We had meetings with your teachers, parents and others who work at your school. These adults are all very proud of you and of everything you are doing at school to become active global citizens.

As a result of what we saw and heard we should like to tell you that your efforts have met with success. **The Cathedral School has achieved Level 2 Rights Respecting School Award; congratulations!**

We hope you will now be encouraged to go even further acting as RRSA ambassadors in your community and with other schools helping more and more people to understand and support the Convention on the Rights of the Child.

We do hope that you will continue to work alongside UNICEF UK to help all children to know about and enjoy their rights.

With thanks and every good wish

Anita Haigh and Zaitun Virani
