

As a school we have an excellent track record of ensuring that pupils make good progress, and in the last three years have been successful in bridging the gap in the levels of attainment between Pupil Premium pupils and Non-Pupil Premium pupils.

- **In 2016, we received a Local Award for Pupil Premium from the DfE**
- **In 2018, EVERY pupil premium child at the end of KS1 and KS2 achieved the 'expected' level**

We have also used existing researches and publications including those from the OFSTED Good Practice series, and findings of studies undertaken by the SUTTON TRUST to enable us to make decisions relating to provisions. We take into consideration what has worked historically at the school.

A new introduction was online tuition for ensuring 'gaps' in mathematical knowledge are filled – these interventions are carefully chosen on a weekly basis for each child. In addition to specific and timely interventions across the school, we have sought external organisations and identified opportunities for children to have an enriched and enhanced experience of the curriculum. Investigative projects in mathematics, artistic and musical performances, sporting experiences are just a few of the curriculum enrichment areas we focused on this year.
